A.2	Appendix 2 Name	6

Chapter 1

Introduction

Text Text

1.1 Introduction into the usage of LaTeX

A **picture** is included like Figure 1.1.

Figure 1.1: Exemplary picture: The logo of the ISV institute.

Tables are included like Table 1.1.

Table 1.1: Exemplary table

German	English (GB)
Nutzenfunktion	utility function
Umlegung	apportionment

An **equation** is included like Equation 1.1

$$f(x) = c_1 \cdot x^2 + c_2 \cdot x + c_3 \tag{1.1}$$

with parameters c_1 , c_2 and c_3 and variable x .

A **source** can be cited by [Nachname1Nachname216] (Take a look at the .tex file). To update the references in the pdf (optical sign that it is necessary: you see a [?] where the source is supposed to be), in TexMaker between the two arrows select BibTex and press run (the left arrow), then PDFLaTeX, then BibTex, then PDFLaTeX, then Schnelles Übersetzen, to see the result. It thereby automatically appears in the Bibliography chapter. To activate *autocomplete* for the available sources from your .bib file (created with Jabref or similar software), go to Bearbeiten -> Literaturverzeichnis aktualisieren.
